International application No. PCT/AU2004/000363

Box No. II	Observations where certain claims were found unsearchable (Continuation of item 2 of first sheet)	
This international reasons:	tional search report has not been established in respect of certain claims under Article 17(2)(a) for the following	
1.	Claims Nos.:	
	because they relate to subject matter not required to be searched by this Authority, namely:	
	because they relate to parts of the international application that do not comply with the prescribed requirements to such an extent that no meaningful international search can be carried out, specifically:	
	·	
	because they are dependent claims and are not drafted in accordance with the second and third sentences of Rule 6.4(a)	
Box No. III	Observations where unity of invention is lacking (Continuation of item 3 of first sheet)	
This Interna	tional Searching Authority found multiple inventions in this international application, as follows:	
1. Cla	ims 1 to 10	
3. Cla	ims 23 to 30	
A f	ire fighting apparatus for use with a sprinkler, apparatus including a fire retardant supply and a proportioning means. oned on the extra sheet.	
2.		
because they are dependent claims and are not drafted in accordance with the second and third sentences of Rule 6.4(a) Box No. III Observations where unity of invention is lacking (Continuation of item 3 of first sheet) This International Searching Authority found multiple inventions in this international application, as follows: 1. Claims 1 to 10 A fire fighting apparatus with sprinklers mounted on a structure to form a radiant heat barrier of fluid droplets. 2. Claims 11 to 22 and 35 A sprinkler head for use in forming a radiant heat barrier of fluid droplets. 3. Claims 23 to 30 A fire fighting apparatus for use with a sprinkler, apparatus including a fire retardant supply and a proportioning means. as reasoned on the extra sheet. 1. As all required additional search fees were timely paid by the applicant, this international search report covers all searchable claims.		
4. X	No required additional search fees were timely paid by the applicant. Consequently, this international search report is restricted to the invention first mentioned in the claims; it is covered by claims Nos.: 1-10.	
Remark on	Protest The additional search fees were accompanied by the applicant's protest.	
	No protest accompanied the payment of additional search fees.	
	110 Protest accompanies are payment of additional accompanies.	

International application No.

Sui	lac	emental	Box
-----	-----	---------	-----

(To be used when the space in any of Boxes I to VIII is not sufficient)

Continuation of Box No III:

The different inventions are:

- 1. Claims 1 to 10 are directed to a fire fighting apparatus with sprinklers mounted in the region of a structure to form a radiant heat barrier of fluid droplets. It is considered that the radiant heat barrier of fluid droplets comprises a first "special technical feature".
- Claims 11 to 22 and 35 are directed to a sprinkler head for use in forming a radiant heat barrier of fluid droplets, including at least one radial arm with tangential extensions that pivots to spray the fire fighting fluid. It is considered that the at least one radial arm comprises a second special technical feature.
- 3. Claims 23 to 30 are directed to a fire fighting apparatus for use with a sprinkler, the apparatus including a fire retardant supply and a proportioning means to deliver the fire retardant in a controlled concentration. It is considered that the fire retardant supply and proportioning means comprises a third special technical feature.

Claims 31 to 34 each define more than one invention within each claim, and as such, the scope of each claim is not clear.

Information on patent family members

International application No.

PCT/AU2004/000363

This Annex lists the known "A" publication level patent family members relating to the patent documents cited in the above-mentioned international search report. The Australian Patent Office is in no way liable for these particulars which are merely given for the purpose of information.
